## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-13, drawn to a surgical system, classified in class 606, subclass 53.
  - II. Claims 14-22, drawn to a method for facilitating a surgical procedure, classified in class 606, subclass 86.
  - III. Claims 23-30, drawn to a surgical robot, classified in class 606, subclass 97.
  - IV. Claim 31, drawn to a clamp for securing a surgical instrument, classified in class 606, subclass 102.
  - V. Claim 32, drawn to a surgical system for using a robot attached to a patient bone, classified in class 606, subclass 80.

Inventions I, and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process, such as using a device to bolt together two pieces of wood. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

2. Inventions II and III-V are related as subcombination disclosed as usable together in a single combination. The subcombination are distinct from each other if they are shown to be

Art Unit: 3731

separately usable. In the instant case, inventions II ,III,IV and V have separate utility such as being used without the other devices.(MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Groups III, IV or V, restriction for examination purposes as indicated is proper.

4. Inventions III and IV-V are related as subcombination disclosed as usable together in a single combination. The subcombination are distinct from each other if they are shown to be separately usable. In the instant case, inventions III, IV and V have separate utility such as being used without the other devices.(MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and the search required for Group III is not required for Groups IV or V, restriction for examination purposes as indicated is proper.

6. Inventions IV and V are related as subcombination disclosed as usable together in a single combination. The subcombination are distinct from each other if they are shown to be separately usable. In the instant case, inventions IV and V have separate utility such as being used without the other devices.(MPEP § 806.05(d).

7. Because these inventions are distinct for the reasons given above and the search required for Group IV is not required for Group V, restriction for examination purposes as indicated is proper.

8. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Thomas Kohler on 10/9/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor X Nguyen whose telephone number is (703) 305-4898. The examiner can normally be reached on M-F (8-4.30 P.M).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Milano can be reached on (703) 308-2496. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-3590 for regular communications and (703) 305-3590 for After Final communications.
